

Excellence In Compressed Air Solutions

Compressed Air Supply

Air as a Utility

You don't generate your own power, water or natural gas, so why make your own compressed air? Compressed Air Supply, from Industrial Air Centers offers the comprehensive outsourcing solution for compressed air. With IAC's Compressed Air Supply, your compressed air system becomes the plant's fourth utility. When you need air, it's there.

Key Benefits

- Eliminate the capital cost associated with new equipment
- Reduced energy costs with properly sized and controlled system components
- Fewer demands on plant maintenance resources
- Less downtime
- Predictable compressed air system costs
- Flexible agreements with fair market value purchase option

Who should consider IAC's Compressed Air Supply?
Anyone who uses compressed air.

Industrial Air Centers' Compressed Air Supply

Compressed Air Supply is another example of the unique and innovative solutions that IAC provides to the industrial compressed air market since 1991.

Compressed Air Supply is IAC's "all-inclusive" service agreement. With Compressed Air Supply, IAC provides the system design, equipment, installation, maintenance, back-up equipment and bumper-to-bumper warranty for a single monthly fee that does not change for the duration of the agreement.

Compressed Air Supply is the most cost-effective way to provide compressed air to your facility. Let us show you how.
